# **Monthly SLA Reports of CNNIC**

2017.02

China Internet Network Information Center (CNNIC) is a non-profit administration and service institution established under the authorization of the Ministry of Information Industry (MIIT), performing its responsibilities as the national Internet network information center. CNNIC is not only a registry in charge of the operation and administration of .CN domain names and Chinese domain names, but also the operator for running and administering the root servers for .CN domain names and Chinese domain names.

CNNIC is dedicated to providing world-leading services to the public and registrars. Aiming at offering phased operations and maintenance analysis data of CNNIC services, the *Monthly SLA Reports of CNNIC* facilitate all related parties to learn the operation of CNNIC and discover and solve problems in a timely manner. In this way, CNNIC can improve its service quality and develop further to provide fundamental services for the Internet network of China in a better way.
